JCOP (Java Card OpenPlatform) is a Java smart card distributed and developed by NXP.

The JCOP 41 v2.3.1. is an USB-smart card and can be used not only with standard smart card reader, but also with simple USB-connectors. The JCOP card is connected as ICCD card and can be used with such ICCD standard drivers.

JCOP 41 is a Dual-Interface Smart Card, that means, the card can also be contacted with a contactless card reader. For building access systems, this card is also be able to emulate Mifare Classic 1k/4k.

JCOP 41 v2.3.1 is compliant to JavaCard Standard 2.2.1. and GlobalPlattform 2.1.1. Their cryptographic features supports RSA up to 2432 bit, ‘Eliptic curves’ – ECC GF(2n), AES and 3DES.
